Sample Information

Sample ID	Farm ID optional	PSNT \$10	Lab ID

Sample soil when **corn has 4 to 6 leaves**.

Nitrate is mobile, therefore a **12" deep sample is required**. For one representative soil sample, take at least 10 sub-samples (12" deep) to represent **no more than 10 acres** in a field, zone, or grid of interest.

Please send samples to lab as soon as possible. Please **do not let samples sit in truck cab, car, or trunk**. If needed, air-dry samples on paper plate before sending.

For more information please see: [The Pre-Sidress Nitrate Soil Test \(PSNT\) For Nitrogen Management in Corn Production Systems of Tennessee](#) publication on our website at: ag.tennessee.edu/spp

†The University of Tennessee collects and summarizes soil sample data for research and extension education purposes. By submitting this sample you, or your agent, agree to this action.
